

Pulse Supply, a global supplier of enabling technologies for Next Generation Networks, offers wireless, WAN and VoIP solutions. Pulse focuses on products and services for carriers, ISPs, VARs, government agencies, and enterprise customers. Pulse also supplies resellers, VARs, VADs and other organizations who benefit from our manufacturer relationships.

Why Pulse?

We take the time to understand your network needs. It's easy to provide quotes based on part numbers. It's tougher to make sure those part numbers will actually provide the right solution. At Pulse, we believe that we should first understand **what** you want to accomplish before we suggest products or solutions. With ties to many manufacturers, Pulse remains neutral when proposing equipment solutions and is a trusted single-source supplier.

What Types of Equipment and Solutions?

Voice over IP and SIP: Hardware/Software for implementation and migration to VoIP, including IP-PBX, Class 4/5 Soft Switch, Session Border Controllers, Routing Policy Platforms, Call Termination, Low to High Density Media Gateways.

Wireless and Backhaul: Solutions in licensed and unlicensed Microwave, Wi-Fi, Cellular, virtualized WLAN 802.11 a/b/g/n/ac, Millimeter Wave and Free Space Optics.

Datacomm and Wide Area Networking: Traditional solutions for combining and extending Data, Video and Voice, including multiplexers, routers, TDMoIP, Channel Banks, CSU/DSUs, Digital Cross Connects, Modems and traffic-shaping devices.

Machine-to-Machine(M2M): Products that allow both wired and wireless systems to communicate with other devices, including GSM/CDMA/UMTS, SMS, 3G, 4G and LTE.

Signaling and Gateways: Protocol conversion, transport and signaling termination, seamless integration of disparate networks utilizing SS7, C7, Sigtran, ISDN, SCADA, CAS, R1, R2 and other protocols.

Optical Transport: SONET, SDH, DWDM, CWDM, and Ethernet.

How do I contact Pulse Supply?

Pulse has offices located in California, Colorado, Florida, Maryland, Minnesota, New Jersey, North Carolina, Virginia and Washington, and delivers equipment around the world. Call 1-410-583-1701 to reach any location or email sales@pulsesupply.com.

NSGDatacom Inc.

Pulse Supply works with a variety of manufacturers and technologies to create the best network solutions for carriers and other service providers, utilities, VARs, government agencies and enterprise businesses of every size.

Our Technologies

- Session Border Control
- Gateways
- VoIP & SIP
- Signaling
- SS7/C7/Sigtran
- Transcoding
- Load Balancing
- Cellular
- Microwave
- Network Power
- WDM
- SCADA
- Sub-Rate Data
- Network Management
- Policy Management
- Voice Announcement
- Test Equipment
- Soft Switch
- Patching
- Cabling
- Infrastructure
