ErisTerminal® SIP DECT Base Station

VSP600-B

Add hands-free mobility to your SIP communications with the VSP600-B base station. Thanks to DECT 6.0 technology, you can add up to six cordless devices per base station, using any combination of our VSP601 SIP cordless handsets or VSP608 SIP cordless desksets each with its own extension or unique phone number. The base station can be configured for up to six lines and supports up to four active, concurrent calls.

VSP600-B Key Features

Super-clear mobility with Orbitlink Wireless Technology
Leave your desk without leaving your work behind and enjoy DECT 6.0 sound quality and reception.

Scalability
Growing pains? Register up to six cordless handsets and/or desksets to the VSP600-B DECT cordless base station and program each one with its own phone number or extension.

Advanced call handling
Impress customers with comprehensive call handling features that are compatible with hosted and open-source PBX platforms.*

Simultaneous call handling
View and manage up to two calls at the same time (per handset). Calls are displayed on screen, making them easy to answer, transfer, forward, etc.

Flexibility
With support for up to six SIP lines/accounts, you can manage multiple calls with advanced call handling features.

Intuitive design
You're in business with a user-friendly interface, large backlit display, two soft keys and navigational pad.

Convenient mounting
Make the most of tight spaces. The VSP600-B DECT cordless base station can be free standing or wall-mounted.

Three-year warranty
Enjoy the peace of mind that comes with an industry-leading, standard three-year warranty. VTech also provides advanced replacement on warranty claims using new, not refurnished products.
